CJS Series

20' Wide Homes

The CJN Home Series was created as a tribute to Carl Johnson, the founder of SRI Homes. Over the years, Carl contributed enormously to the manufacturing housing industry in Canada. He served tirelessly for over 30 years as a director on various Provincial and National Manufactured Housing Associations. He received numerous awards for industry service, including the 1992 BC Association's Pioneer Award for outstanding contribution and influence over the years.

Green is more than a color at SRI - Regent Homes. Our factory built process minimizes waste of materials, transportation, fuel and power. The waste we do have is then sorted, and recycled into a host of other products. The advantage of building homes simultaneously means that product left from one home can be used in a home "down the line". This same product would probably end up being tossed out at a site built home. This not only reduces our costs but makes us better stewards of the earth we all share.

Advantages of Factory Built Housing

Guaranteed Price - Once the order is firm, so is the price.

Quality Control - The CSA inspection process guarantees that your home has been inspected and tested at every level to ensure our high quality standards.

Flexible Design - There is a much higher degree of flexibility than you might have thought could happen in a factory built design and Regent is the best at it.

Reduced Subtrades - A growing challenge in the work place is to find qualified, reliable sub-trades to complete on site projects. Off-site manufacturing greatly reduces these issues.

Reduced Footprint - One of the greatest benefits of having your home built in a manufacturing facility is the consolidation of labour and building materials at the factory. Having the majority of the work done offsite greatly reduces the amount of vehicle traffic, noise and pollution at the location your home will be placed. The time frame that contractors need to be onsite is significantly lowered - lessening the impact for you and your neighbors and speeding up the time frame to when you can move into your new home.

Reduced Waste - Factories buy large quantities of lumber and other building materials, much of which is ordered to exact fit requirements, there-by reducing waste. Waste that does occur is 50-70% less than when a building is constructed on site and can readily be recycled or disposed of properly.

Energy Footprint - Buildings arrive at destination in one or more large modules that are 85% or greater complete. On site construction activity and the time to completion is dramatically reduced. In addition, the pollutants contained in heating fuels, toxic adhesives and other waste materials that could negatively impact the environment and neighboring properties are dealt with properly at the factory level. Additionally, all of Regent's homes are built to meet or exceed the National Energy Codes (9.36) - ensuring that your new home is built to last and that it is an energy efficient dwelling.

Energy Performance - Climate controlled factory conditions and assembly line procedures optimize thermal insulation & air/vapour barrier installation, resulting in a tighter and better insulated builder's envelope that requires less energy to heat and cool. For you, that means lower monthly bills!

Reduced Cost - Our factory built process can save you up to 25% on your building costs through plant efficiencies, large buying power, reduced waste and reduced bridge financing costs.

20' Wide Homes

STANDARDS & SPECIFICATIONS

EXTERIOR

- ✓ Colour coordinated metal fascia
- ✓ Vinyl siding & white vinyl soffit
- ✓ 4/12 pitch roof
- ✓ Exterior GFI receptacle - front door
- ✓ Exterior frost-free tap – kitchen sink
- ✓ 30-year architectural fiberglass shingles
- ✓ 7/16" roof sheathing
- ✓ 16" eave on HE, 12" on long walls
- ✓ Separate receptacle for heat tape
- ✓ Engineered roof trusses to 2.7 KPA snow load
- ✓ 12" deep engineered I-Joists at 16" o.c. floor system
- ✓ 3/8" wall sheathing on inside & outside of exterior walls
- ✓ Insulation: R22 walls; R40 ceiling; R48 floor
- ✓ 2x6 side walls at 24" o.c. - 8' walls
- ✓ 19/32" T&G subfloor
- ✓ 12" tubular steel frame with detachable hitch
- ✓ Insulated steel exterior doors, 36" front and rear (*where possible*) with peepholes and deadbolts with lever door handles
- ✓ Coach lights at all exterior doors
- ✓ LowE PVC windows and sills with screens

KITCHEN

- ✓ Adjustable shelf in all cabinets – (2) upper & (1) lower
- ✓ Double stainless-steel sink
- ✓ Roller drawer slides
- ✓ PVC cabinet doors
- ✓ 18 cu. ft. frost free refrigerator
- ✓ 30" electric range with clock and timer
- ✓ 2-speed range hood with light and fan vented to exterior
- ✓ White kitchen appliances
- ✓ Communication box (*empty*) at kitchen area
- ✓ Single lever faucet with vegetable sprayer
- ✓ Upper corner cab – narrow reed glass
- ✓ Microwave cabinet with separate circuit (*most models*)

UTILITIES

- ✓ Plumbed and wired for washer/dryer
- ✓ Natural gas high efficiency furnace
- ✓ Dryer vent rough in
- ✓ Electric hot water tank
- ✓ Overhead solid shelf at washer/dryer area
- ✓ Insulated lines in HWT cavity

BATHROOM

- ✓ Exhaust fan with humidistat in main bath
- ✓ Exhaust fan in ensuite on separate switch
- ✓ Towel bar and towel ring (*most models*) in each bath
- ✓ Cosmetic box in main bath
- ✓ Showerhead and rod in all baths
- ✓ GFI receptacle in all baths
- ✓ Walled tub/shower with single lever pressure balanced faucet in all baths
- ✓ Single lever faucets in all baths
- ✓ Theatrical lights in all baths

INTERIOR

- ✓ Decorative vinyl covered drywall
- ✓ 6 mil. vapour barrier includes switches and receptacles
- ✓ Plush carpet in LR, MBR, Bedroom #2/#3/#4, FR
- ✓ Quality vinyl floor covering
- ✓ Cathedral ceilings in LR, DR, KIT
- ✓ Ceiling lights in all bedrooms
- ✓ Wire only ceiling light in living room
